Cell Phone Guidelines for Mission of Hope in Nicaragua

In keeping with the Spirit of being on Mission, we urge Mission volunteers to consider avoiding the use of their cell phones while in Nicaragua. We recognize that the use of a cell phone for camera, videotaping, etc is commonplace.

Therefore, we request if you retain your cell phone while in Nicaragua, you leave it on "airplane" mode, thus allowing you to listen to music, take photos, read, etc.

We also recognize that it may be necessary for some individuals to access their cell phone for business issues or for family emergencies.

Should you choose to use your cell phone for texting, phone calls, etc. you are fully responsible for all costs incurred.

The Mission of Hope assumes no responsibility for damages, loss, theft or expenses incurred for use of your cell phone.
